

TRANSFORMING LIVES IN SALONE

SPONSORSHIP

We are continuing to support many students in all levels of education (from primary school up to university level) through our sponsorship programme. We also have one medical sponsorship and three family sponsorships. We were very pleased with our students who sat the government BECE exams at the end of the last school year – their results were overall the best that Transform Salone students have ever achieved (so far!!).

As always we have students on our waiting list needing sponsors. As well as educational sponsorship we can arrange

medical sponsorships for people with long term medical issues and short-term family

sponsorships for families in crisis needing an extra helping hand. Basic education sponsorship remains at £20 a month. Costs vary for further education and other sponsorships. If you know of anyone who may be interested in sponsoring, please tell them about us.

A DOCTOR IN TRAINING

One of our sponsored girls, Jeneba, has started medical school this year! It has been her lifelong dream to become a doctor and with a lot of patience, perseverance and hard work she is now on the road to seeing her dream come true.

TRANSFORM SALONE

We are thrilled to invite Carla onto our board of Trustees. Carla first visited Sierra Leone in 2015 and very quickly became involved in helping with the day to day running of the charity – she has taken on the huge task of social media and communications for us!

TEAMS

In February we were happy to host a team of 9 from Leeds. As well as plenty of visits to local projects to introduce the team to Sierra Leone they also organised a sports day, helped students with letter writing, ran teaching sessions and arranged lots of fun and games

including the biggest hokey cokey we've ever seen! The team leader is planning to bring a youth team in 2020.

AND THAT'S WHAT IT'S ALL ABOUT

As well as the more structured teams we welcome individuals and small groups to come and stay with us in our team house and help out with our day to day work.

THANK YOU

We would like to say a huge thank you to all of our sponsors and supporters – without whom we would not be able to help the people of Sierra Leone in the ways that we do. We are often amazed by people's kindness and generosity. Thank you all from the bottom of our hearts!

Please get in touch if you would like to be more involved in our work.

FUNDRAISING

Our biggest fundraiser so far this year has been the London Marathon – our runner, Stephen, trained hard for the challenge and completed it in an impressive 5 hours 25 minutes – he picked up a hamstring injury on the way around but bravely battled through to the end.

Transform Salone rely on donations and fundraising to cover the costs of running the charity. We also welcome fundraising for our various projects: Rice, Medical and Education.

We are always looking for new ways to fundraise: running? a bake sale? sponsored silence? hike up a mountain? car boot sale? Contact us (details below) with any other great ideas we've missed.

PLEASE HELP US

Take on a challenge and raise much needed funds for Sierra Leone!!

For any comments or queries please contact Carla Husband:
